Unified Command,

At this time, we have only an approval from Mr. Hodgins on the language below.

Please verify if you approve of the statement:

The Unified Command completed a site assessment, cleanup and resampling of the Las Varas Beach following a positive match result from a single tarball during a July 9-10 sampling effort. Shoreline Cleanup Assessment Technique teams then took another set of samples on July 21st and found no match for Line 901 oil.

It will be added to the Refugio Response website.

Thank you.

During the UC brief today, Environmental Unit requested the Las Varas tarball resolution be posted on the website. This is the single sample that came back as a positive from July 9-10 sample blitz.

Proposed:

The Unified Command completed a site assessment, cleanup and resampling of the Las Varas Beach following a positive match result from a single tarball during a July 9-10 sampling effort. Shoreline Cleanup Assessment Technique teams then took another set of samples on July 21st and found no match for Line 901 oil.
